COUNTY TAX REDUCED FOR SECOND YEAR IN SUCCESSION

Donald R. O'Leary, Oxford County treasurer, reports that the County Tax to the towns for the year 1972 will be lower than for the year 1971. This is the second year in a row that the County Tax has been cut. Mr. O'Leary states that the County is once again in good financial condition, and noted that the County did not have to borrow money in the year 1971 for operation. Money was invested from time to time throughout the year in certificates of deposit with a good rate of return for the County. Burton A. MacDonald, chairman of the County Commissioners states that the tax cut could have been more, but the Commissioners took from surplus the amount of \$20,000 as the County's share for the Oxford County Regional Airport now being constructed in the town of Oxford. Mr. MacDonald states that upon completion of the airport, the economy of the surrounding area will be greatly improved and therefore is a very good investment. Already there are three businesses moving into the area because of air transportation and an industrial park is underway adjacent to the airport. The County Tax as set by the County Commissioners for the year 1972 and the amount of reduction from the 1971 tax is as follows:

W. S. C. S.—AFTERNOON CIRCLE

The W. S. C. S. Afternoon Circle of the Methodist Church met with Faith Brown at her home on Chapman Street, Thursday afternoon, March 2.

A program preceded the meeting conducted by Sarah Stevens. The theme, "Being Black in South Africa," isn't pleasant. Readings by Dorothy Abbott, Annie Gordon, and Ethel Ward were presented.

The meeting opened in due form with Dorothy Abbott presiding. Thirteen were in attendance.

A World Day of Prayer was held Friday afternoon, March 3, at the Congregational Church. This was for all the churches in the vicinity. Ann Bailey gave the message, assisted by Hulda Stevens from the Methodist Church.

The W. S. C. S. served a banquet at Mt. Abram Lodge to the First Naval District skiers from Maine. Frances Saunders was chairman for the occasion.

Annie Gordon has asked for donations of material for the Work Shop which meets each Wednesday afternoon at her home on Tyler Street.

The next meeting will be at Rose Warrington's. Refreshments were served by the hostess, assisted by Dorothy Abbott.

GREENWOOD CITY

— Mrs. Colista Morgan, Corres. —

A lovely but lonely trail I followed today moving among the silent reflections of the snow capped hills. Passing the ledges where the sun glittered upon icicles; they melted into droplets and made small transient rainbows. Great seamed rock faces stood out in gray; a frozen granite sea, their tops covered with snow. The valley falling from the sides was dark with evergreen forests.

The sun streamed through the notches and crept down the slopes.

I flushed a partridge from a tree near the trail. He has an uncanny sense of the season. Most of the winter he has stayed back in the woodlands with his varied diet of seeds and berries, and tiny buds of birch and poplar. Now I suppose he looks for the awakening of such buds as the maple and the apple. To us the difference goes unnoticed but the partridge knows better. And it won't be too long before we'll hear this "thump - thump - thump." This drumming starts like slow, heartbeats, then a booming roll increasing rapidly until it fades into silence with a soft subdued tremor.

This is the male's call of love, his challenge heard most often in spring.

As I looked around I thought how anxiously we wait for the fading of the snow. Instead storms are adding to its depth. The change is visible in the day's length for the sun is warmer at mid-day. Pussy willows are out along the road sides and in the swamps. Some buds, if observed closely do not hug the branches as tightly as a month ago. So the snows come and the snows go but surely there is a difference from January to March.

The winds like other kinds of weather probably have their reasons for blowing. They seem to be inevitable and boisterous. I for one do not like them. Yesterday they blew all day long but have finally swept the sky clear of every tatter and wisp of cloud. Today, as I walked the sky was a harmony of universal blue, bordered by a rim of blue-white.

A little brook at my left, even though still eased in ice, seemed to chatter about the snow soon to melt on the hillsides and run to the valley's. It may have been adding encouragement to the buds on the

bushes above. The river, more sedate than the brook, waits for the melting of the ice and the kingfisher's rattle as he moves up stream. Listen again—not with your ears this time but with your imagination; you may hear the talk of the ducks. We all wait for the winters ice to be nudged onward by these flowing waters.

The crow, seldom heard here this winter has returned and registered his call to that of the jay. I watched one today, inky black, beat his leisurely way across the pond; straightened away beyond the ridge's shoulders, riding the wind northward above the darkness of the pines and then drop below the tree tops.

As I faced the spruces in the distance, with spires crowned together, silhouetted against the sky they looked like ships under full sail. They were trim and erect and no doubt sugared with resin crystals. Here and there a giant pine mastered them all. So few ever come to the woods to see how these pines live and grow, lifting their arms to the light.

I passed the place where some evenings we hear the spine chilling, vibrating call, the queerly penetrating whoo-who-who. At times

the owl's call is most thrilling and most fearful.

I left a glorious wide view and a calmed silence when I entered the road for my last half mile home. Surely March isn't May. The earth reluctantly releases its snow but the image of spring is set so that tomorrow's sun will bring its new face to our world.

Mr. and Mrs. Clyde Morgan visited Mr. and Mrs. Carroll Nottage in South Paris on Saturday.

a caller there and at Clyde Morgan's.

Ann Holt spent the week end in Brunswick.

Maureen Millett celebrated her eleventh birthday with a family party at her home on Wednesday.

Mr. and Mrs. Gilbert Dunham and Mrs. Beanie Abbott and children were Sunday visitors at their grandmother's, Edna Tamlander's.

Mr. and Mrs. Robert Silver have a son, born March 10, 1972, at the North Cumberland Hospital, Bridgton.

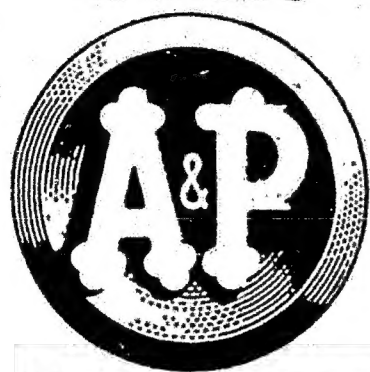

Mr. and Mrs. Ralph Leeper, of Rhode Island, were at their camp here for the week end.

HOW CAN YOU MAKE A BETTER CUP OF COFFEE?

First, buy bean coffee...not pre-ground coffee. At A&P, we sell bean coffee. The coffee bean is nature's seal that holds the flavor. Once that seal is broken by grinding, flavor fades... NO MATTER HOW IT'S PACKAGED. The shorter the time between grinding the beans and brewing your coffee, the greater the flavor. Second, have the beans ground to fit your coffeemaker. At A&P, we custom grind the beans in a choice of seven different grinds...not one or two. If you're using pre-ground coffee, switch. This week, have an A&P bean coffee custom-ground to fit your coffeemaker. You'll make a better cup of coffee.

Want a suggestion? Try our 100% Brazilian Eight O'Clock Coffee. It makes a great cup...and sells at a great price.

LANDOWNER TAKE NOTE (From Presque Isle STAR HERALD February 9, 1972)

If you are the owner of agricultural or wilderness property and you've become somewhat peeved at the growing realities and threats of land taxation based on what the property could be rather than what it is, take note of what New Hampshire woodlot owners are doing.

According to an article in the latest issue of Maine Forest Products Council News, the crafty Granite State foresters are threatening to post no trespassing signs all over their land if their taxes are raised.

In areas of Rockingham County where extensions of existing residential sectors are being sought, taxing officials are threatening the tree farmers with property taxes based upon the value of the land as house lots.

In reply, the woodland owners have prepared signs ready for posting which read:

"POSTED IN PROTEST. Sorry, no hunting, no snowmobiling, no trespassing. If this land is to be taxed as house lots, it's no place to hunt, snowmobile or hike. Help us get current use assessment so these 'house lots' can be enjoyed as open space once more. Call your legislator today."

Maine farm and forest owners might keep that one up their sleeves. If they should take an "I'm paying all the taxes to I'll keep all the enjoyment" attitude, they could put more than 75 percent of the state off limits to the public.

Militant snowmobilers, hunters and nature lovers would not be long in forming an angry but helpful political army to reduce taxes.

IRS EXPLAINS TREATMENT FOR MEDICAL INSURANCE PREMIUM

Planning to deduct your medical expenses? If you are, be sure to read the instructions for handling medical insurance premiums, Whitney L. Wheeler, District Director of Internal Revenue for Maine, said today.

Mr. Wheeler pointed out that if taxpayers itemize deductions, one half the premium paid for medical insurance up to a maximum of \$150, may be deducted in full as a medical expense without regard to the 3 percent limitation.

The remainder of the premium cost for medical insurance should be added to other medical costs and that total reduced by 3 percent of adjusted gross income. Life insurance and accident and health insurance covering the loss of earnings are not medical expenses and the premiums paid are not deductible.

Medical expenses should be listed on Schedule A along with other deductible items. This schedule should be attached to the Form 1040.

Mary taxpayers overlook the special provision for deducting medical insurance premiums and, as a result, overpay their income taxes, Mr. Wheeler said.

The handling of medical expenses is explained in the Form 1040 instructions as well as in the IRS Publication 502, "Deduction for Medical and Dental Expenses," available free by writing the IRS district office.

COUNCIL COMMENTS

Some time ago two Student Council members received a letter from Betty Eagle High School requesting the Council's participation in a student exchange program to learn and experience other systems of education. Sharon Dunham and Cheryl Wright went to Betty Eagle for two days and Ann Delmitres and Andrew Moulton (pictured here) spent the two days at Telstar. They stayed with local families as did Sharon and Cheryl. Ann and Andy seemed to enjoy Telstar and vice versa.

In a traditional candlelight ceremony held in the auditorium last Friday, 11 new members were initiated into the National Honor Society. Conducting the services were Cheryl Wright, president; Susan Davis, vice president; Stuart Sweetser, treasurer; and Dean Walker, secretary. They spoke on the qualifications of a National Honor Society member: scholarship, character, leadership and service.

New members are: Seniors, David Holt, Dana McVillie, Juniors, Terry Heryington, Belinda Briggs, Roger Clark, Mike Davis, Sharon Dunham, Randy Littlefield, Gayle Packard, Ross Swan, Kevin Triand.

I should like to congratulate the Society on a beautiful ceremony and the new members on receiving what they deserve.

The one and only, genuine, original Telstar band played a concert for the patients at the Pleasant Hospital on Monday. What is it they say? To give is better than to receive.

Tuesday, Mr. Armstrong took to earth science classes to Bates College to see the planetarium. Everyone said they enjoyed the trip very much.

The Drama Club is going to present Joseph Kesselring's "Antony and Cleopatra" sometime in May. It seems that everyone wants a part. There are bound to be a few surprises! We'll have to wait and see.

That's all for now, so until next week, keep an eye out for that green stuff. It's not to be under the white stuff anymore! — Roberta Crockett

At the March meeting the reports were given by the men who had checked on the rescue sleds, and the types of sleds were discussed. At the annual town meeting at West Paris on March 7 the voters of the town authorized the setting up of a rescue unit and purchase of equipment. \$200 was raised for this project by the town. This article was presented and supported by the club.

We are sponsoring a cabaret style Private Party in April, and tickets will be available from members, or from Ray Stone anytime before then. All snowmobilers are urged to put back any downed fence as the snow begins to disappear. Remember, public relations are very important to all of us if we are to be allowed to travel across country. Already legislatures in other states are passing very strict laws regulating snowmobiles and ETV's and unless we mind our manners the Maine legislature will do the same.

CARD OF THANKS
I would like to thank everyone who was so thoughtful of me during my recent stay in the hospital.

Australia — A Blunder Down Under
The REAL truth about Australia. Hated for Americans, high cost of living, low wages, unemployment, business flimflams. Sounds strange — but true! This 48 page book has Aust. news articles and statistics to prove it and tells of our experiences and how we were taken over the coals by the "warm, friendly" Aussies. Send \$2.50 to J. A very impressive ceremony in their honor was presented by the Bow girls under the leadership of Miss Terri Mills of Bryant Pond, Worthy Advisor. She also presented each of the honored guests with a level from the Rumford Assembly representing their official designation. Entertainment was furnished by Miss Mitchell who gave a reading imitating "Minnie Pearl" of the "Grand Ole Opry".

Under special dispensation, the Assembly was honored to have the State Mother Advisor, Mrs. Roberta Green of Yarmouth, as installing officer for the Mother Advisor and Advisory Board members, not previously installed this year.

Distinguished guests present also included Miss Gweneth Hazell of Cumberland, Grand Worthy Advisor; Grand Charity Patricia Morrison of Ellsworth; and Grand Chaplain Barbara Mitchell of Phillips; Grand Representative to Pennsylvania, Alayne Coleman of Wells; two State Executive Board members, Mrs. Gertrude Andrews of Bryant Pond, and Aubrey Chase of Brunswick.

I had a letter Thursday from my daughter, Mrs. Dorothy Harvey, in Tucson, Ariz. She wrote it is warm and nice there, 85 degrees and the trees are leaved out, one peach tree is blossomed. They have a new mobile home. There are mesquite bushes there an ironwood tree and a paloverde tree with yellow blossoms like a honey suckle but have spines three inches long. It has not rained there since October.

Mrs. Carlotta Hart went to her doctor in Colebrook one day last week and to the hospital there for x-rays.

The deer are not tracking up the snow around the newly cut tree top like they have done in the past. Just one track so far this winter. Coydogs and fishers have traveled around some during the night.

They say that Joe Roderick has helped reduce the bobcat population by two this winter. That should be good news for small animals as well as birds.

E. D. C. HOLDS REGULAR MEETING TUESDAY EVENING

The Educational Development Committee of E. D. C. held its regular meeting on Tuesday evening, March 21, in the Town Hall. Those present were: Bill Hickey, superintendent of schools; S. A. D. 44; Martha Trapp, Peggy French, Larry Arsenault, Joan Morford, Nan Timberlake, Dr. Bill Yeo, and Ed Flynn. Guests present were: Ed Snyder, Brian Flynn, and Joan Hickey.

After the minutes of the February meeting were accepted, Mrs. Timberlake reviewed the Health subcommittee work and stated they were now in the process of investigating the areas of health which were already covered in other subjects. Brian Flynn, Teller principal, stated that it is possible and feasible to implement a Health program for next year at the Junior High level.

Ed Flynn, supervising principal of Bethel elementary schools, then reported that in his opinion the GRA Achievement Tests are not worthy of the time or money involved for the elementary level. He feels that aptitude or learning disability tests might be more helpful.

Mr. Kinsley discussed the Renewal Project, an attempt by the federal government to aid local districts in an effort to improve their school system through a coordinated effort.

Dr. Yeo, Teller assistant principal, reported that the Teller faculty overwhelmingly agreed to keep the present internal adviser system rather than making a formal program.

After discussing the pros and cons of grading systems a bit, Mr. Kinsley appointed a committee of Ed Flynn, Dr. D. J. Yeo, and Mrs. Marjorie Trapp to further study this and report at the next meeting.

Finally, the E. D. C. recommends to the School Board that they finance one board member, one faculty member and one lay person to attend a conference in Boston about Open Education, to be held March 22-23.

WARDENS REPORT ICE FISHING "FAIRLY GOOD" IN MAINE

Ice fishing throughout the State is reported as being "fairly good" according to reports from wardens of the Maine Department of Inland Fisheries and Game.

Commissioner Maynard F. Marsh said that a recent cold snap and last week's storm have enhanced through the ice fishing conditions. Marsh continued by saying that despite what appears to be ideal conditions, anglers, on foot and particularly those using snowmobiles should exercise extreme caution. There have been several machines which have gone through the ice, including a Christmas Day fatality.

Although the ice fishing season is more than half over, there is still time to enjoy this outdoor sport.

CONSUMER MUST BE ALERT

The Federal Trade Commission has issued a rule requiring that apparel must bear permanent labels clearly disclosing washing and cleaning instructions. This rule will become effective July 3, 1972, and will cover articles leaving the manufacturer's plants after that date. As a result, manufacturing firms have the responsibility of making sure the labels are attached to the garments.

The FTC said the rule will cover all apparel and hosiery, both domestic and imported, which require care and maintenance for their ordinary use and enjoyment.

The rule also requires that labels which will be used by home sewers to make apparel must be accompanied by care labels which consumers can affix permanently to the finished products. With the many fibers available today and with so many synthetics that look like something else, care in labeling is greatly needed.

A sensible solution for yard goods seems to be a standardized national code that will be imprinted along the selvage every quarter yard or so. This will help the home sewer greatly—she must be alert to this and follow directions as given.

It will be interesting to see what develops come July.

FARMERS MUST APPLICABLE CLASSIFICATION OF "FARMLAND" BY A

Failure to file an application for classification of land "farmland" before April 1, 1972, will result in a waiver of such designation for the next year. Maine Department of Conservation and Forestry warned farmers under a new statute that landowners, who qualify as "open space land", must apply to the local planning commission for a classification from the State Bureau of Land.

Commissioner Dolloff, warning whether land is considered farmland, includes the acreage used in farming or agriculture, productively, and the nature of the equipment used on such land.

Under this statute, no application for classification is required if the land's estimated 2.4-acre minimum is less than 2.5 million acres.
